

Ground-Guards®

GROUND PROTECTION FOR SPORTS

Ground-Guards is a game changer!

If you're undertaking ground maintenance works on a sporting pitch or stadia, then Ground-Guards has a range of light, medium and heavy duty mats perfect for protecting the ground underneath from damage.

Ground-Guards' high-quality plastic mats are used to create temporary roadways, trackways and access points, preventing heavy machinery from rutting the ground and causing expensive damage.

Ground-Guards are also used to create temporary pedestrian footpaths, roads, cycle tracks and more – the easy way to enhance a sporting event and keep participants and members of the public safe from trips, slips and accidents.

Golf clubs, football and rugby pitches, athletics tracks, fun runs, touring events and many more all benefit from the unrivalled ground protection that Ground-Guards can offer.

See for yourself how Ground-Guards is a winner!
