

LiteTrack

SOLID, YET FLEXIBLE

Flexible panels follow ground contours yet are strong enough to protect the surface.

STRONG GRIP

Checker plate tread provides extra surface grip.

Perfect for pedestrians and vehicles.

COST-EFFECTIVE

Cost-conscious system ideal for temporary construction sites and events.

Durable plastic lasts a long time.

SAFE

Splinter-free, solid plastic creates safer working conditions.

FLEXIBLE JOINING OPTIONS

Multiple holes provide various joining options for additional strength.

ENVIRONMENTALLY FRIENDLY

Made from 100% recycled LDPE plastic.

For lighter duty, more flexible applications, LiteTrack is the cost-effective trackway of choice to safely support vehicles and pedestrians.
