

DuraDeck®

DuraDeck® ground protection mats are moulded HDPE composite mats used to create portable roadways and work platforms that provide a firm base for equipment, event structures and people. Use anywhere you would lay down plywood.

- *DuraDeck® mats are durable, clean easily for use over and over, and last for years.*
- *Mats are easy to install and can be linked with connectors to form a continuous solid roadway or work surface.*
- *DuraDeck® mats are portable, lightweight, and easily moved in a truck and handled by one or two people.*

 Construction and Civil Engineering	 Landscaping Projects
 College/School Campuses	 Outdoor Special Events
 Cemeteries	 Arborists/Tree Care Projects
 Parks	 Structural Movers
 Golf Courses	 Water Drilling/Pump Projects
 Residential	 Septic Tank Projects
 Transmission Projects	 Over Concrete

Where do I use DuraDeck® mats?

Anywhere you have ever used plywood. Use over any unstable, wet or sensitive surface.

How much weight will DuraDeck® hold?

Subject to firm, dry ground conditions, DuraDeck® mats are usually comfortable with vehicles up to 30 tonnes UDL (Uniformly Distributed Load). Heavier vehicles up to 50 tonnes may be used with caution for short term access in dry weather.

How long will DuraDeck® last?

DuraDeck® mats are durable, lasting longer than wood products and increasing ROI. It distributes weight better, will not splinter or crack, and will not absorb water or contaminants.

SPECIFICATIONS

Size: 2400mm x 1220mm x 13mm

Weight: 40kg per mat

Material: High-Density Polyethylene (HDPE)
